

PRESS RELEASE

Epic-Premier Adds Support for Microsoft® SQL Server to ConceptOne™ Insurance Management Solution

New capabilities allow clients more choice and flexibility.

Lakeland, FL – June 5, 2013. Epic-Premier, a leading technology and consulting solution provider to the insurance marketplace, today announces that it is adding support for Microsoft® SQL Server to their ConceptOne™ Enterprise Management Solution.

The additional database support of Microsoft® SQL Server will enable Epic-Premier clients to utilize a growing corporate standard in the insurance I.T. environment offering them additional choice as to which DBMS best meets their information systems landscape. Epic-Premier will provide ConceptOne™ clients an alternative of utilizing either Sybase® SQL Anywhere or Microsoft® SQL Server as their DBMS allowing further integration possibilities.

ConceptOne™ provides a single-entry, fully integrated Policy, Accounting, Claims, and Document management solution specially designed for the MGA/MGU, Program Administrator, Wholesale Broker, and Specialty Carrier marketplace. Flexible enough to manage both up and down stream insurance business in the admitted and E&S markets, clients will have the added flexibility of database selection when utilizing ConceptOne™. This is just another example of how Epic-Premier is committed to offering solutions that provide their clients with choices when integrating and standardizing their systems.

ABOUT EPIC-PREMIER

Since 1996, Epic-Premier has delivered Intelligent Automation Tools and Services to the insurance marketplace. Our unique approach sets us apart from traditional insurance software vendors that focus on software as a final solution. We believe software is only part of the equation to implementing a successful insurance automation strategy. We enable our clients to work more efficiently, produce higher returns on investment, and provide better customer service. In addition to our flagship product, ConceptOne™, we provide all products and services required for a successful insurance automation strategy. We offer a proven project methodology, insurance knowledgeable resources, professional services, and client specific custom development support. With both software development and implementation services from Epic-Premier, we offer our clients a Single Point-of-Accountability. We invite you to find out how we can help your company start achieving Out-of-the-Ordinary results today.

More than software. Solutions.
